October 16, 2017

Dear Sisters and Brothers,

Enclosed please find the IUPAT District Council 5 endorsements list for this year's Washington State November 7<sup>th</sup> General Election.

District Council 5 selects candidates that we feel will help us get the best wages, benefits and working conditions, as well as create jobs for all our members. We only look at Labor issues in making these decisions, not other social issues.

Please take the time to vote; these are local offices, mostly city and county positions. A lot of people don't think these races are important but the decisions that are made at the local level effect how much construction happens and if our Union shops get a fair shot doing the work. Local officials create jobs and regulations that can help or hurt our Union members' ability to work on those projects.

For local ballot measures, our general rule is that we should, in most cases, support measures that will create jobs for our members, including most building and road projects.

Your district should be on your ballot, but if you're not sure you can find it by going to <http://apps.leg.wa.gov/districtfinder/>

With all mail-in voting it's easy. Send your ballot in early and make a difference!

Fraternally,

Philip E. Lindquist  
Director of Governmental Affairs
